These grave violations are part of a continuous series of provocative Israeli violations of Lebanese airspace and land in contravention of the principles of international law and the resolutions of international legitimacy, such that the Secretary-General of the United Nations has repeatedly called for their cessation.

In view of these violations and the stepping-up of Israeli threats to Lebanon and the safety of its territory and its citizens, Lebanon calls upon the Security Council to deter Israel from such violations and threats, which place international peace and security in jeopardy. Israel must assume full responsibility for the repercussions and consequences of such acts.

In drawing your attention to the gravity and possible consequences of such acts of aggression, I request to have this letter of complaint circulated as a document of the General Assembly, under agenda item 37, and of the Security Council.
